KJ600G-A

Unique air circulation design

- High efficiency composite filter
- HEPA filter: the filtration efficiency for particles $\geq 0.3\mu\text{m}$ is above 99.9%;
- Honeycomb activated carbon filter: It has unique adsorption, purification and catalysis capabilities for formaldehyde, benzene series, TVOC, CO (carbon monoxide), NH₃ (ammonia), O₃ (ozone) and Cl₂ (chlorine) in the air.

Cold cathode ultraviolet

Application of cold cathode ultraviolet light has a life of up to 20,000 hours, and the effect is much higher than that of conventional light sources. The power consumption is only 20% of the tube lamp (incandescent lamp), and the energy consumption is reduced by 80%.

rotoair®

KJ600G-A

50-70 m²

Comprehensive • purify every corner of the space

All-in-one air purifier can meet the requirements of 50-70 square meters space usage to the maximum. The machine is equipped with efficient and strong motor and inclined flow wheel to form new 360° circulation big airflow, which can purify every corner of indoor space comprehensively.

rotoair®

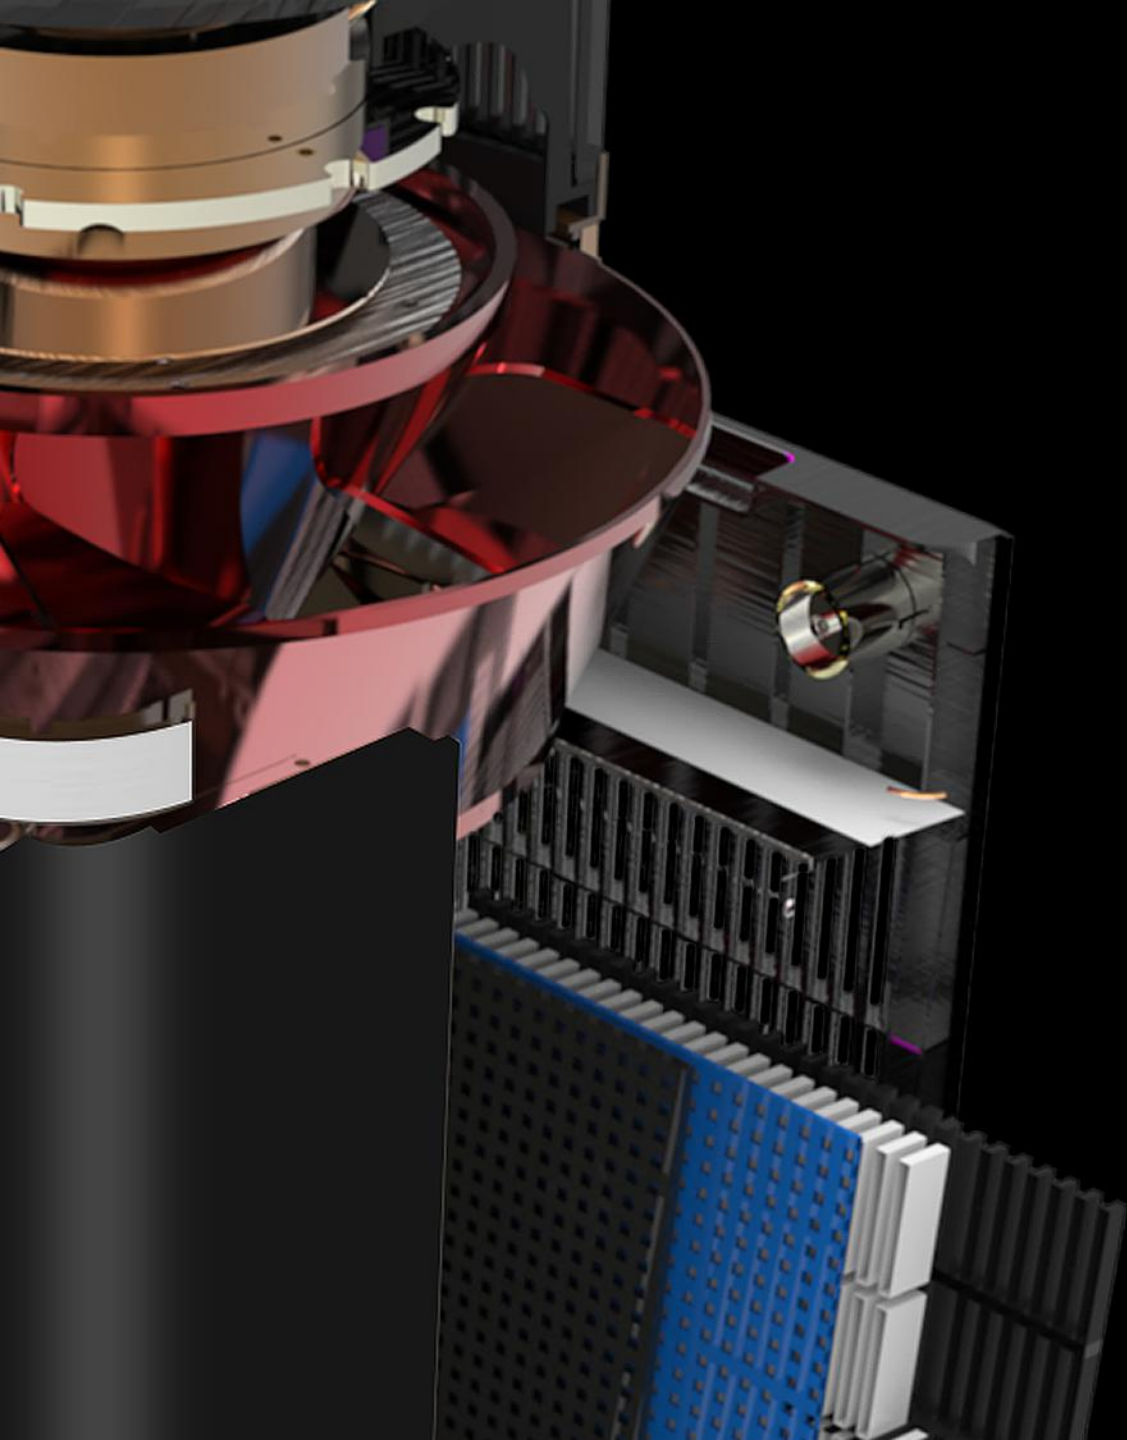

KJ600G-A

SMART HOME • WIFI / BLUETOOTH CONTROL

Intelligent wireless network control, real-time monitoring of indoor air quality. Turn on the air purifier ten minutes before going home to give you a fresh home.
