

COMMERCIAL AIR PURIFIER

Industrial sense, professional performance

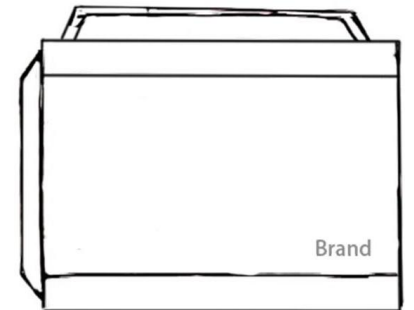

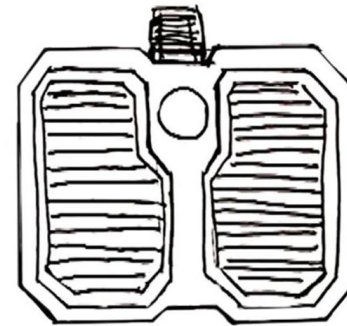

The soft buckle handle saves transportation space.

Transition section design, enrich the product level. More tough and reliable.

By grouping, strengthen the grille to show the strong performance of the product

BENEFITS

- Ozone generator built in Upgrade microgap medium honeycomb discharge
- technology alloy composite.
- Ozone generator is cooled by air fan, good heat dissipation effect.
- Ozone area increased by 20% in honeycomb discharge design.
- Upgrade material life to 3~5 years
- Improve seismic and crash resistance
- Working timer can be set 0.1s ~99 hours or Set the automatic power-on and
- power-off time
- Portable design , small size and compact.
- This type is easier and safer to be operated.
- Input voltage: 110V/60hz,220V/50hz.

LEEYO

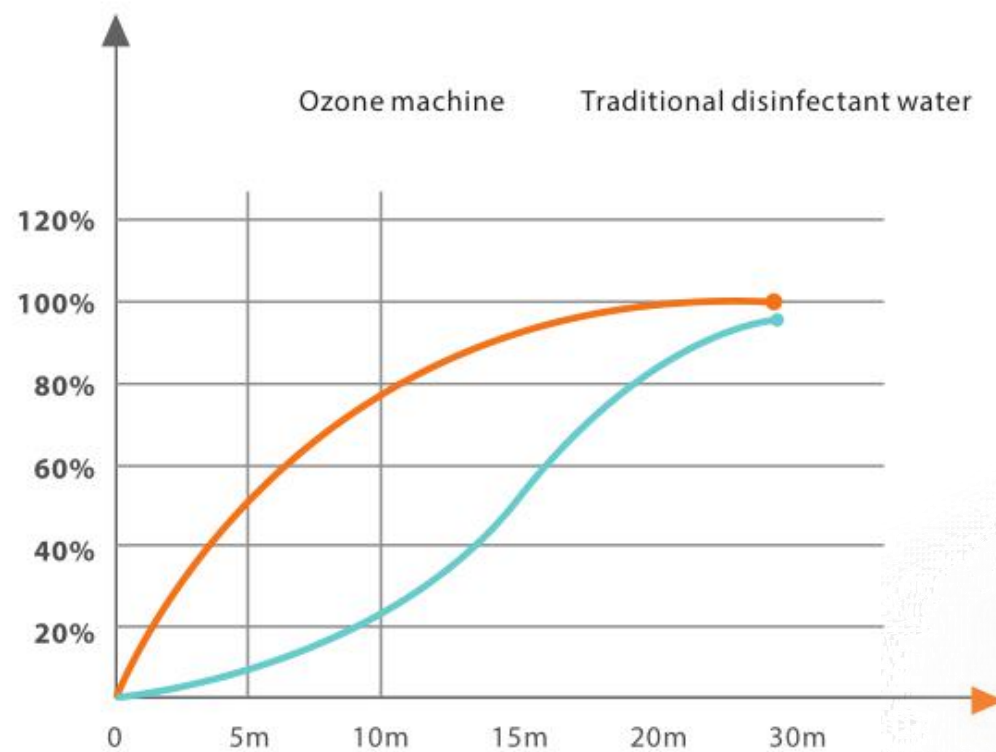

Value Creation & Delivery

30_{MIN}

Deodorization and
sterilization rate 99%

24_{METRE}

Half an hour fast deodorization

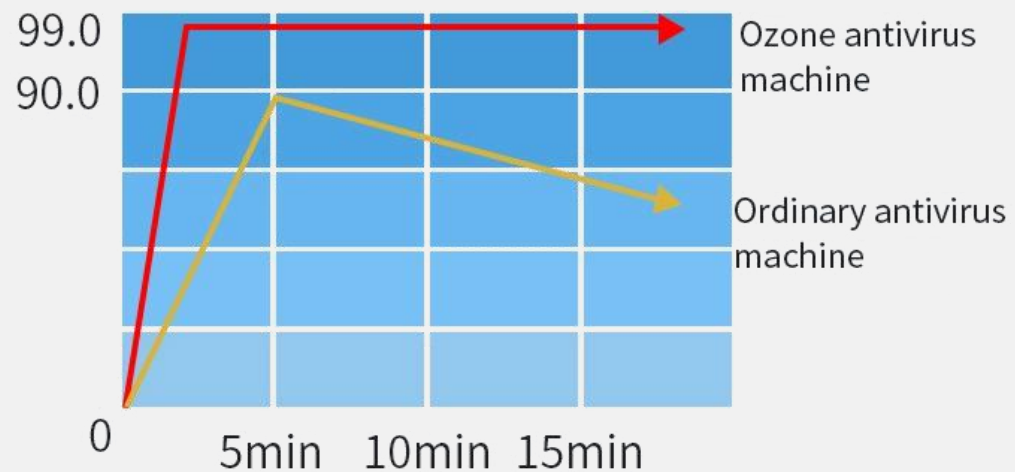

- Sterilization: destroy variety of bacteria & viruses efficiently without secondary pollution.
- Detoxification: effectively remove the residual pesticides from vegetables and fruits.
- Deodorization: eliminate mould, smoke etc.
- Oxygen increasing: improve the oxygen level for air and water.
- Health: air purification, expedite human metabolism.

EFFECTIVE PREVENTION OF CROSS INFECTION

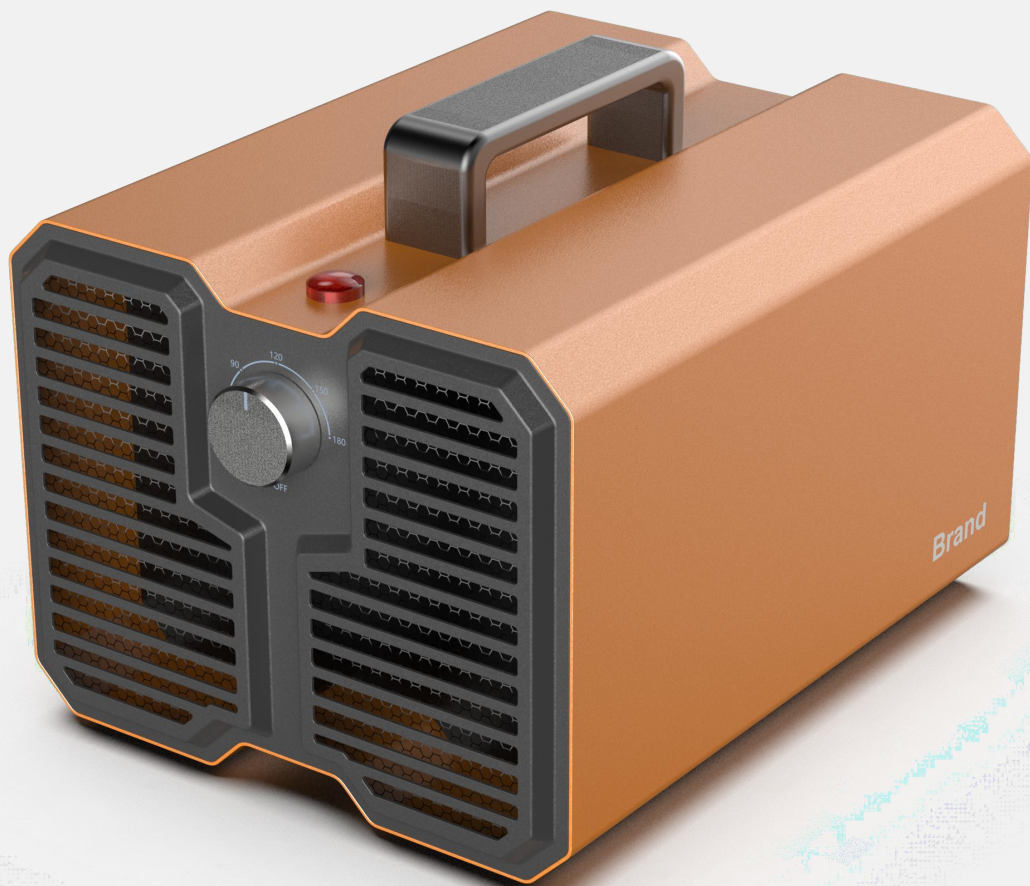

99% efficient sterilization

Bactericidal rate (%)

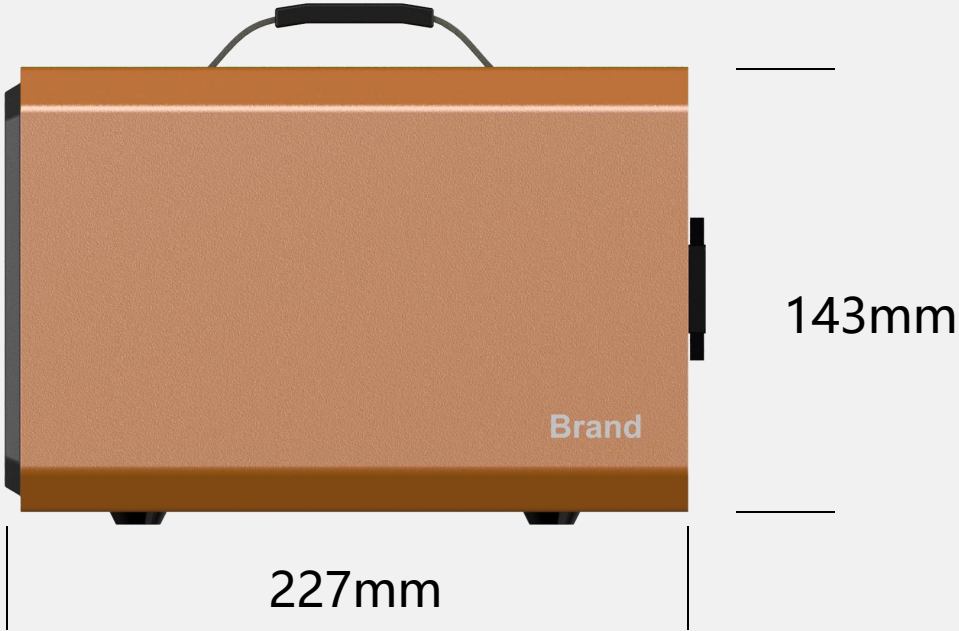

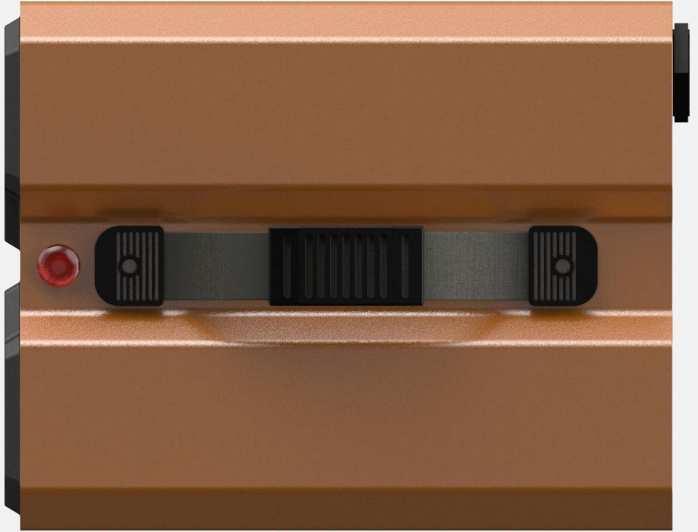

SPECIFICATIONS

• Rated Voltage	100-120V~60Hz
• Power Consumption	120W
• Air Volume	Max 300 CFM
• Ozone Plates	90*110mm
• Active Oxygen(on)	10000mg/H
• Sound Level (dB)	30dB
• Product Size (mm)	227 x 172 x 176 mm
• Gross Weight	2.9kg
• Application Area	645 ft ² (60m ²)

Three View

**Toughness/strength,
professional performance**

Strengthen the grille by grouping

Performance product strong performance

**Knobs can be
purchased directly**

**Echoes the positive,
Strengthen the visual power
of the air inlet and outlet**

Form a more powerful visual
performance of product
