

New product launch Desktop Range Hood

For more than 80 years, range
hoods have never been so mini

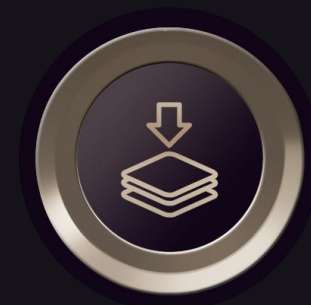

You need super mini desktop range hood

Small and
portable

Super large
air volume

Purification of
oil fume

Easy
clean up

One-button
Turn on

Low noise

Application

Say no to the fact that one person is busy in the kitchen while the family is waiting, and enjoy the fun of cooking together.

Cooking gets rid of the smoke and fire, and realizes gatherings and cooking at the same time.

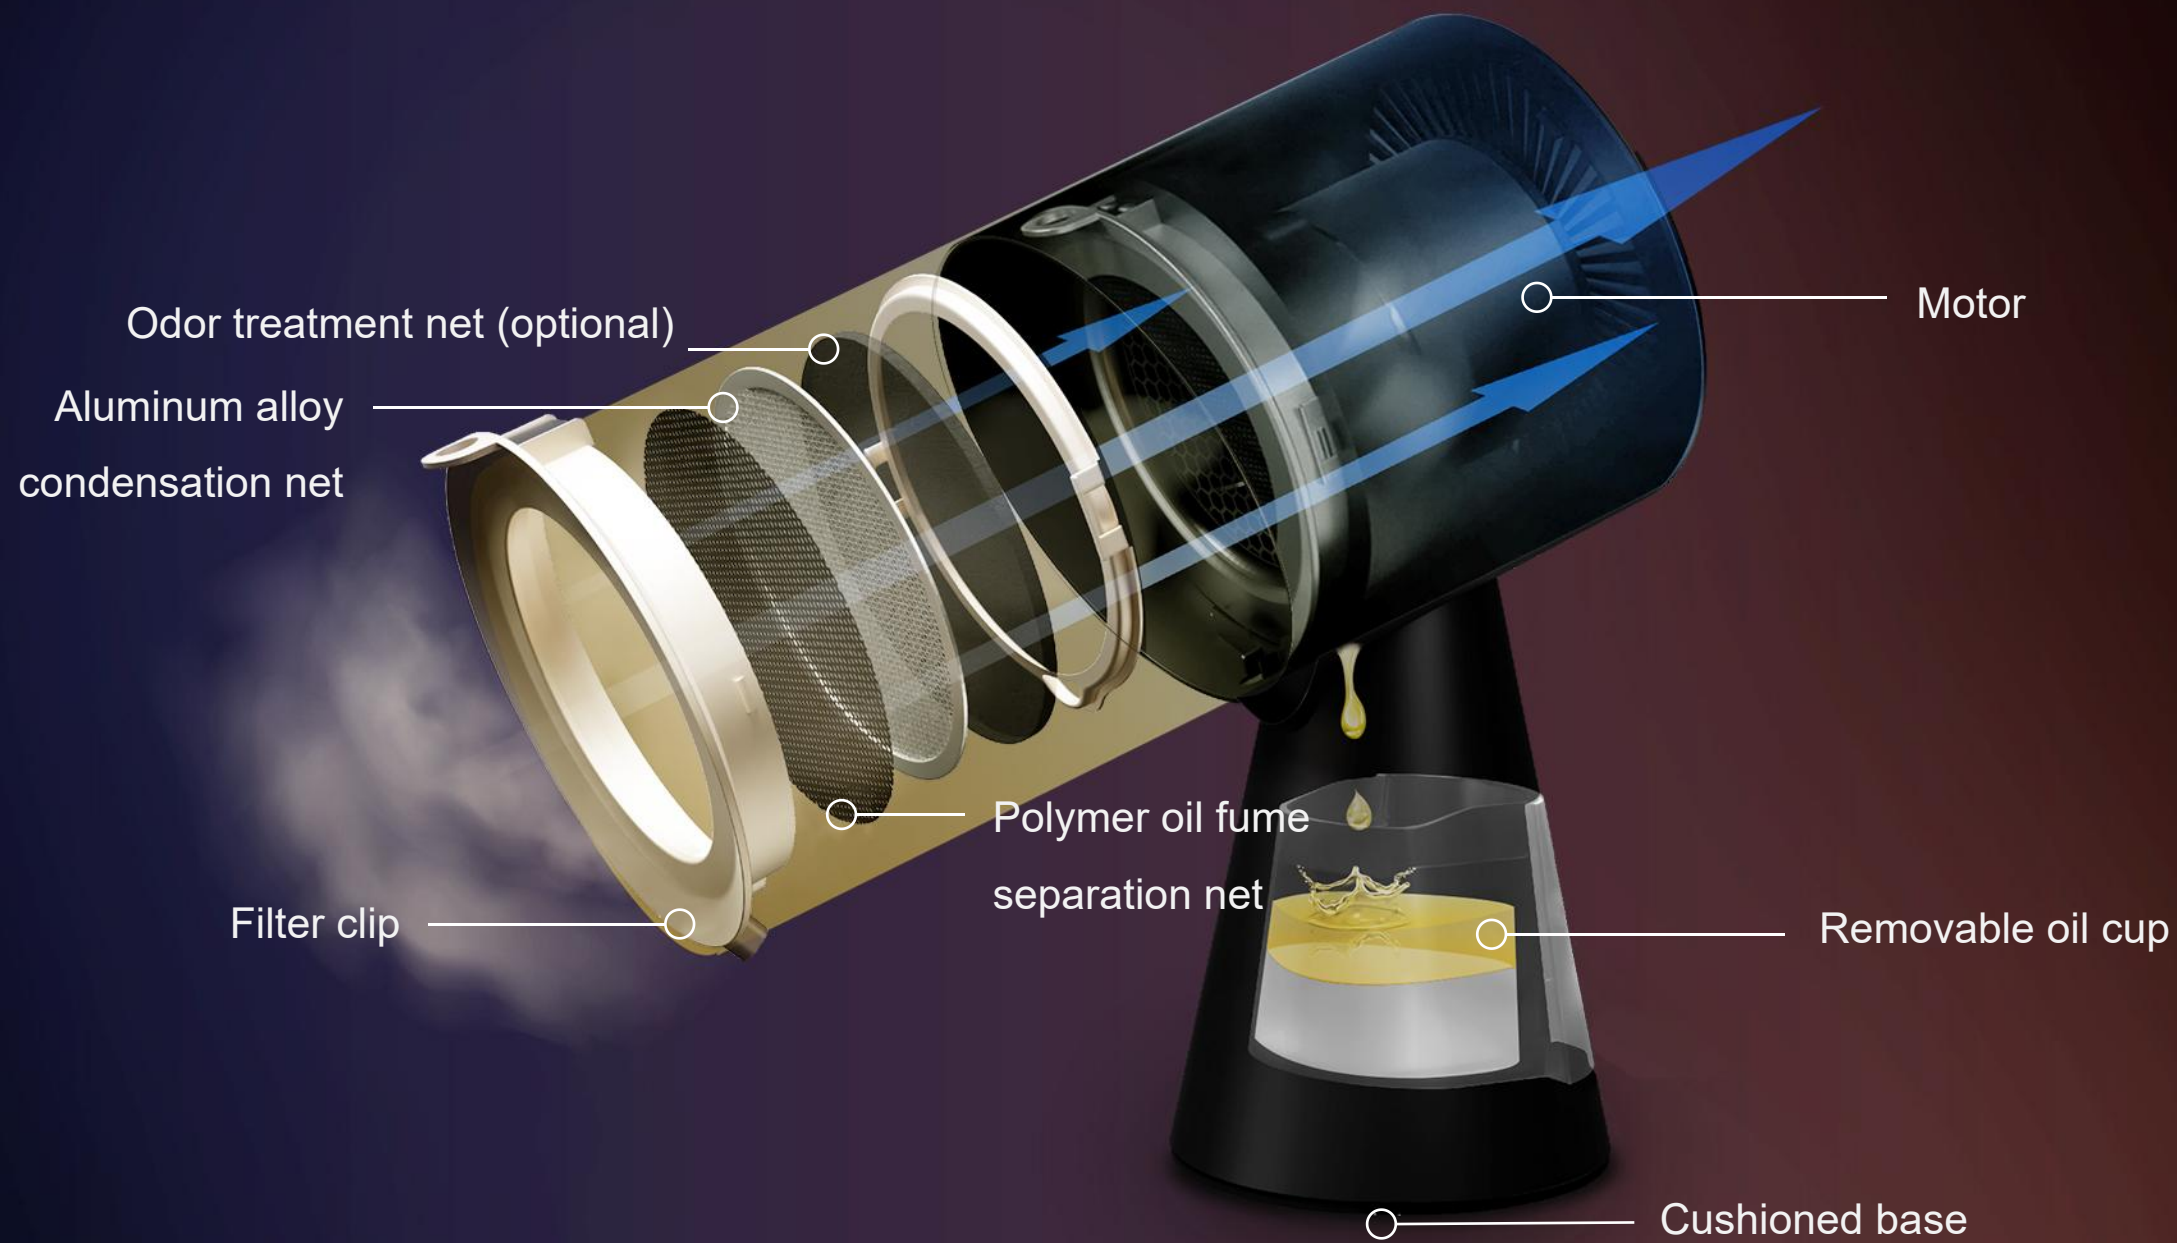

The sense of ritual of a one-person chef for singles.

Smoke exhaust in a straight line without turning is smoother

The smoke source, the air suction port, the smoke filter layer and the air outlet are in the same straight

Patent type: utility model patent number: 2021221918381 patent name: a high wind pressure
air duct structure

Separation layer only 10 seconds to replace

High-molecular polymer materials are used to achieve efficient separation of oil stains and water vapor;

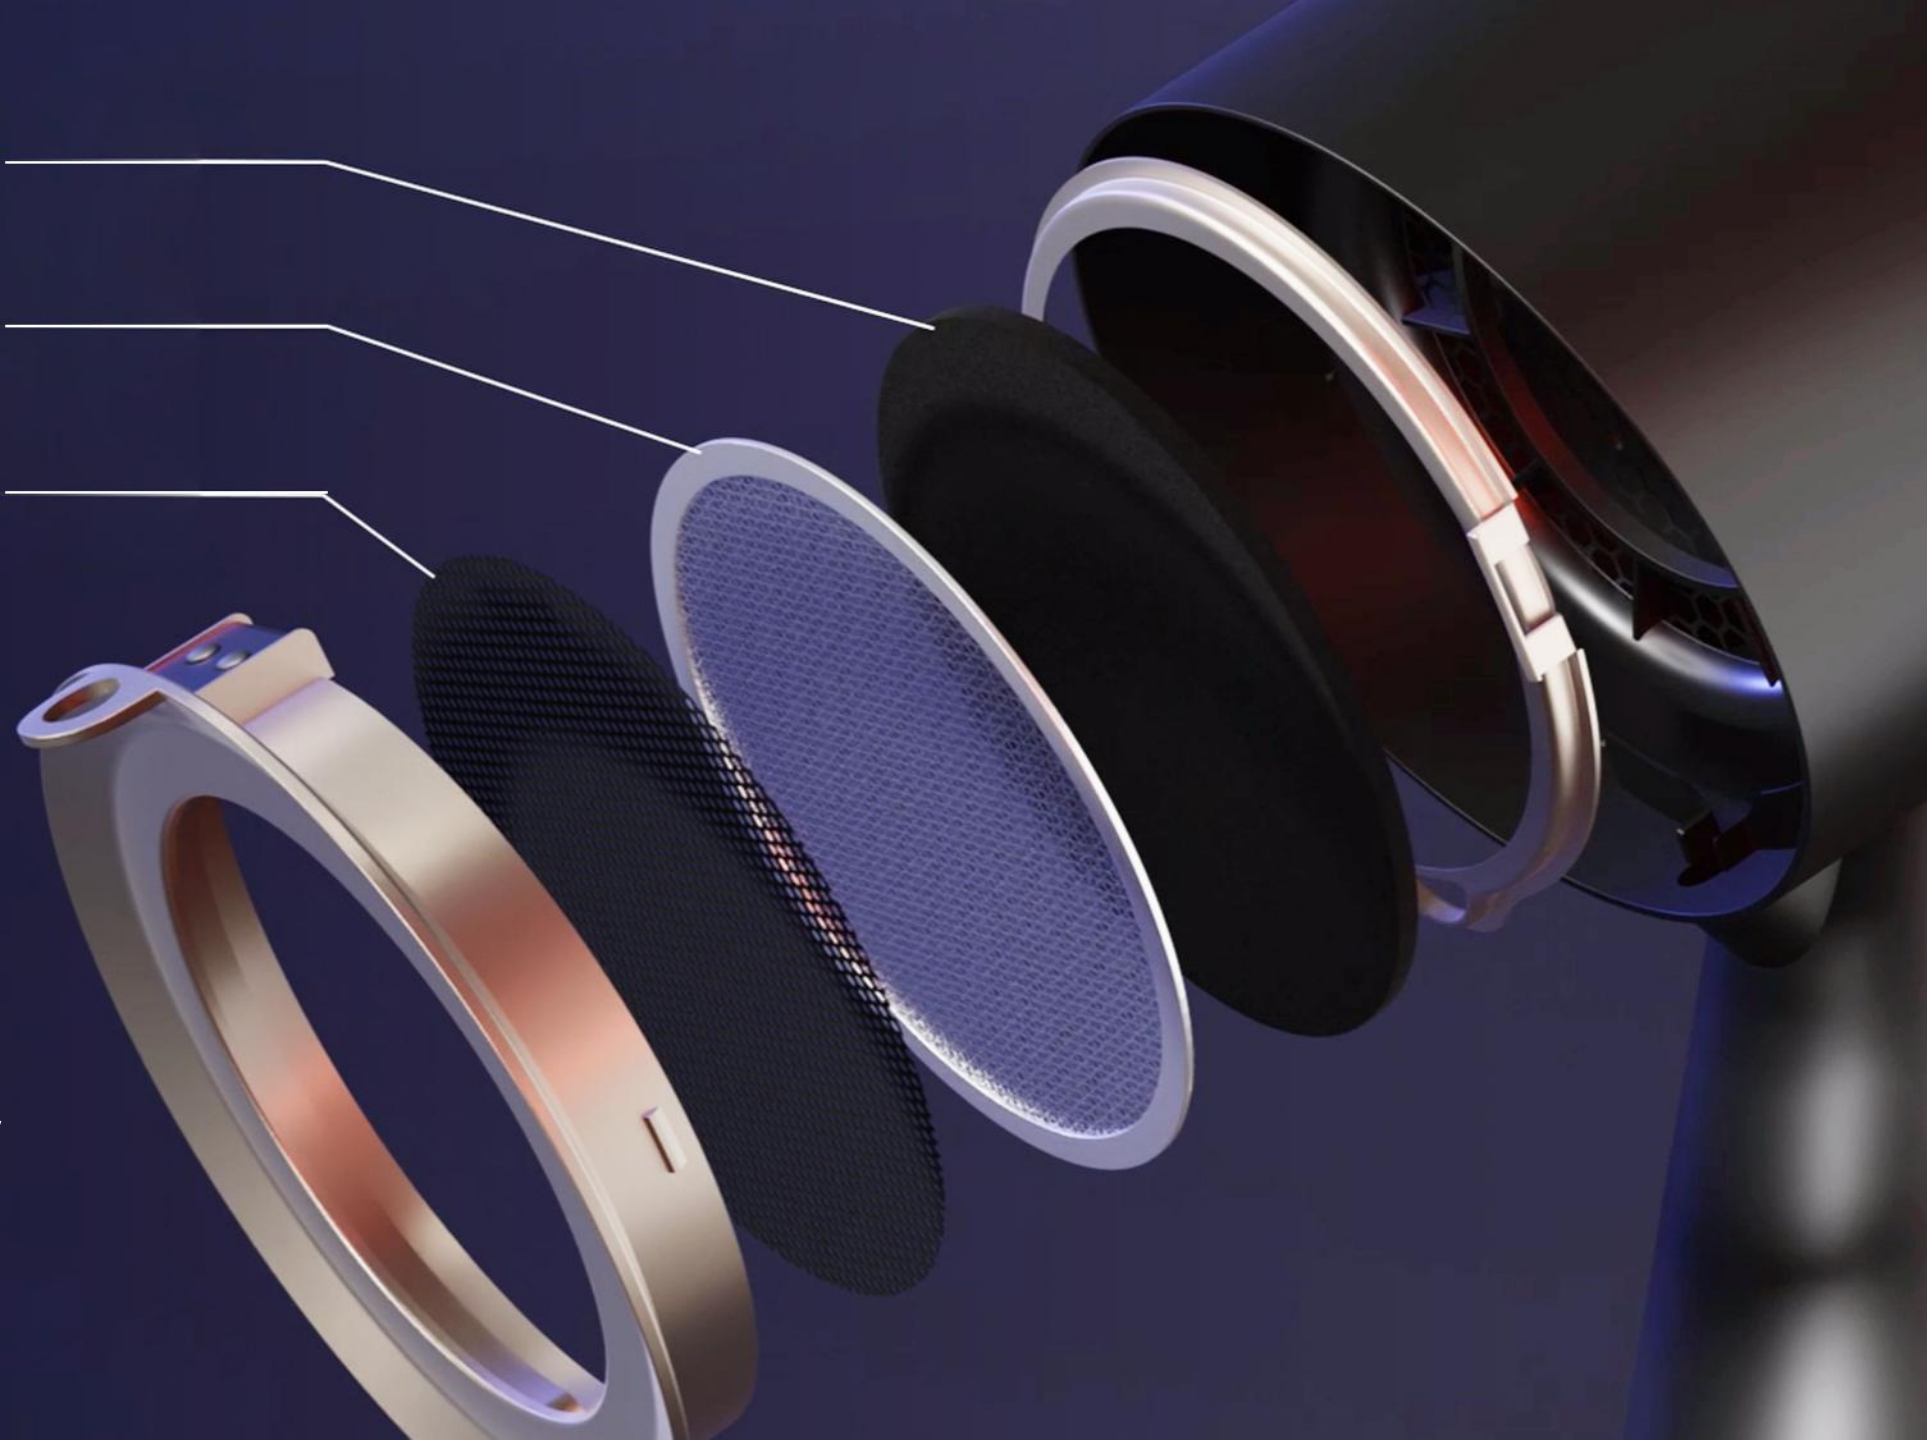

Odor treatment net (optional)

Aluminum alloy
condensation net

Polymer oil fume
separation net

High molecular polymer filter

Remove oil fumes and exhaust
fresh air

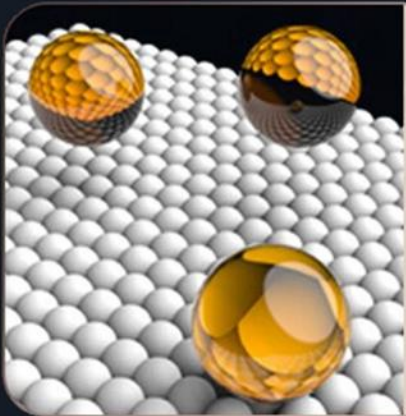

Increase wind pressure increase wind force

All-round absorption of table lampblack

Separation of water, oil and smoke, fresh air but no oil

Carefully filter the fat part of the cooking fume

**3D micropore
Water-oil
separation layer**

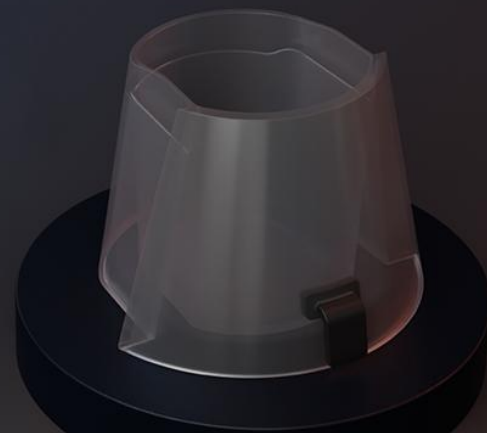

55db low noise

Low-noise operation, so that you can talk without interference

Body is easy to clean

Large capacity oil cup

**Eco-friendly ABS
material**

Cushioning base

Increase desktop friction and
make it more stable

One-button Switch

Technical Data

Model NO.:
AH001

Speed:
2600RPM/3600RPM

Rated Power
24W

GW.
1.5kg

Size:
198x165x343mm

Voltage:
DC 24V

Noise:
<55dB

Exhaust air volume:
3.5m³/Min

165mm

343mm

198mm
