Safety Instructions

IMPORTANT

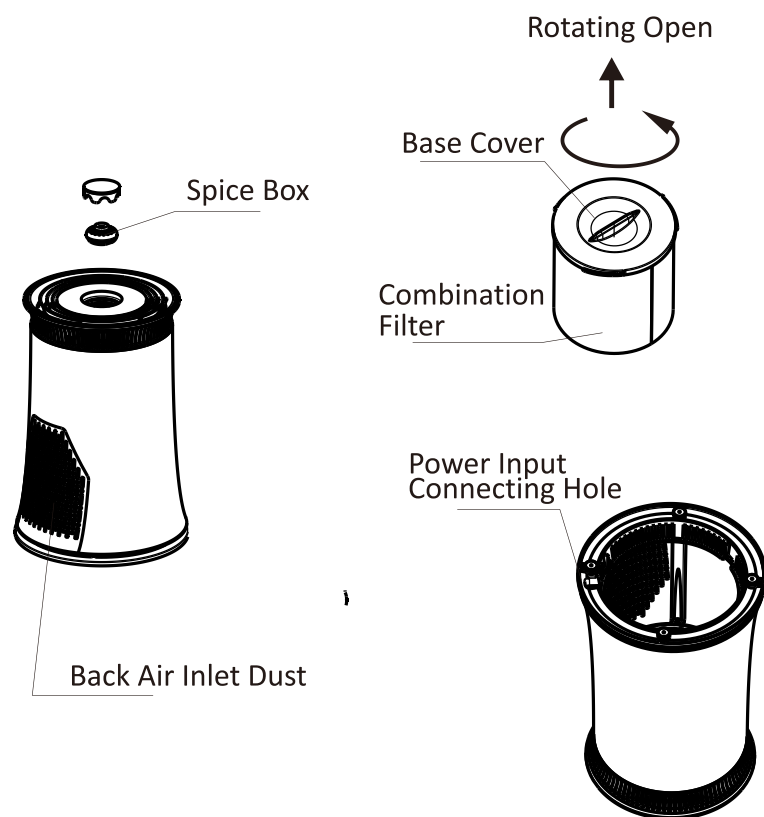

Please read all instructions carefully before using the purifier and follow basic safety precautions to avoid the risk of fire, electric shock or injury to persons or property.

1. Only use the supplied original power adapter with this product. If the adapter, wire or plug is damaged, return the complete product to the place of purchase for inspection, repair or replacement.
2. Switch off and unplug the device before replacing the filter.
3. Unplug the item if it will not be used for a long time.
4. Be sure that applied voltage is conformed to the voltage indicating on the adapter.
5. Do not throw rubbish into the air purifier inlet or outlet.
6. Do not block off the inlet or outlet.
7. Do not refit or disassemble the air purifier without approval.
8. Keep away from water, heat and fire.
9. Do not run the purifier without filter because inhalation of dust may cause some running problems of equipment.
10. Always operate the purifier from a power source of the same voltage, frequency and rating as indicated on the product identification plate.
11. Don't switch on the machine or pull the plug with wet hands to avoid electric shock.
12. Do not allow children to use the air purifier.
13. Keep the purifier away from children.
14. To reduce the risk of electric shock, do not expose the unit or flexible cord to moisture of any sort.
15. Switch OFF and unplug before cleaning.
16. Do not place objects on the purifier or allow objects to obstruct the inlet or outlet openings, or operate in close proximity to walls or curtains, etc.
17. This purifier is intended for normal domestic/household use only.
18. Do not attempt to disassemble the unit other than to replace filters.
19. Do not place the unit on a metal surface.
20. Do not use the purifier in artificially hot or humid conditions or allow to be used in any hazardous environment.
21. Do not clean the purifier with organic solvents.

Using Your Unit

- Less volume and greater airflow rate
- Near silent: more quiet (<26dB(A) at low speed) even than ambient noise
- Fashion styling: elegant & cozy, creating favourable environment for your bedroom and office
- More effective and cleaner: excellent airflow mate with HEPA filter, make your room far away from dust and odor
- More energy-efficient and safer : brushless DC motor

Components

Maintenance

※Before attempting to perform any maintenance on the purifier, disconnect the power adapter!

Filter

- 1、Reference time of changing filter: about once a year
 - ※It depends on different places and usages. For example, changing time of filter may shorter in contaminated zones or smoking areas, etc.
 - ※Please change the filter if the cleaning effect is not good.
- 2、Cleanup routines: biweekly
 - ◇Use soft brush or dry cotton cloth or cleaner to clean the filter surface only.
 - ◇Do not use water to wash the filter.
 - ◇Do not force press or pull because the filter can be broken or deformed easily. Please change a new one before using if it is damaged.

Spice Box

- 1、Reference time of adding liquid spice: about once a month
 - ※Add or change liquid spice that you want if the flavor effect is not good.
 - ※Do not add different liquid spices in the same spice box.
 - ※Do not add chemical liquid spice, but add essential liquid spice.
- 2、Add Method
 - ◇Open the cover and then take the spice box out. Take care to keep the spice box flat.
 - ◇Drop essential liquid spice into the middle round entrance.
 - ◇Do not add over 2ml (6-8 drops) liquid spice into the spice box.
 - ◇Invert the spice box after 10 minutes' standing and make sure no fluid exudation before installing the spice box.
 - ※Do not put the spice box into the purifier when it stained with residual liquid.
